Are you looking for a route to success?

Prosperity Plus Management Consulting, Inc. helps office systems dealerships reach their profit, cash flow and growth goals. Founded in 2001, the company serves as an administrative and organizational consultant for independent dealers large and small. We also provide a full complement of strategic marketing and creative promotion programs, as well as assistance with mergers and acquisitions of all sizes.

Prosperity Plus has helped more than 175 office systems dealers implement the principles of the highly successful Hubbard® Management System to excellent results—which translates into higher productivity, greater efficiency and profitability. And that means higher morale, lower employee turnover, and a dealership that's more capable of achieving its goals than ever before.

Our programs are goal-oriented by design to help you identify and reach the targets you want to hit, whether you're looking to expand your reach among new customers, position your dealership for sale or succession, or simply want to analyze your business thoroughly enough to get an objective assessment for more educated decision making.
